A new book argues basic science can unexpectedly better human lives

SN 10: Scientists to Watch

See each year's list of 10 young scientists making their mark.

[Meet 5 scientists reshaping the way we understand the world](#)

Meet 5 scientists reshaping the way we understand the world
Infant brains, black holes and more inspire the work of our scientists to watch for 2025

10 early-career scientists tackling some of the biggest problems of today

[The Complete History Of Solar Energy: A Timeline From Ancient](#)

Explore the complete history of solar energy from ancient burning mirrors to modern

Edmond Becquerel

In 1839, at age 19, while experimenting in his father's laboratory, Becquerel created the world's first

The History of Solar

French scientist Edmond Becquerel discovers the photovoltaic effect while experimenting with an

10 early-career scientists tackling some of the biggest problems of today In its ninth year, SN 10: Scientists to Watch is Science News ' list of up-and-coming researchers

[Hundreds of studies have missed how much the oceans are rising](#)

A widely used method to calculate sea level rise may have missed up to a century of change, so the risks could hit home for millions sooner than thought.

[Who Invented Solar Panels? History from 1839 to Today](#)

In 1883, New York inventor Charles Fritts created the first practical working solar cell by coating selenium wafers with an extremely thin layer of

January 2026 , Science News

Trustworthy journalism comes at a price. Scientists and journalists share a core belief in questioning, observing and verifying to reach the truth. Science News reports on crucial research and

[Some of 2025's scientific discoveries broke records](#)

Some of 2025's scientific discoveries broke records. Notable findings include longest lightning, biggest black hole collision and more.

Who Invented Solar Energy and When?

In 1839, Alexandre Edmond Becquerel discovered the photovoltaic effect, a pivotal moment that laid the foundation for modern solar energy. This

A Brief History of Solar Panels

In 1894, American inventor Melvin Severy received patents 527,377 for an "Apparatus for mounting and operating thermopiles" and 527,379 for an

[Who Invented Solar Power: The Unsung](#)

[Science News , The latest news from all areas of science](#)

Science News features daily news articles, feature stories, reviews and more in all disciplines of science, as well as Science News magazine archives back to 1924.

[Heroes](#)

Solar power technology began in the 19th century with the photovoltaic effect discovery by French physicist Edmond Becquerel in 1839,

[Scientists are getting serious about UFOs. Here's why](#)

Scientists are getting serious about UFOs. Here's why Understanding what are now called UAPs is crucial for national security and aircraft safety
