

Battery cabinet communication high voltage disconnect device

Battery cabinet communication high voltage disconnect device

High-Volt Battery Disconnect Switch

They are available in multiple versions: 250 A without high-voltage interlock and 400 A/500 A with high-voltage interlock. Engineered to TE's high standards, HV battery switches are built

MSD , Amphenol Tuchel Industrial

Our Excel,mate MSD series offers a solution for safely disconnecting the HV battery pack from the mains without tools and protecting it from short circuits using various fuses.

[Heavy-Duty Battery Disconnect Switches , Battery Doctor\(R\)](#)

Our inventory includes high-voltage, heavy-duty battery disconnect switches, with options for single and dual batteries, handles or push buttons, and more.

[High Voltage Battery Disconnects , Rincon Power](#)

Rincon Power's HVBD line of patented high voltage battery disconnect switches, designed in California, offers reliable high-voltage isolation in a compact,

[RinCon High Voltage \(HV\) Battery Disconnect](#)

High Voltage Battery Disconnect Switches

These switches are used to disconnect the main power or accessory system power for safe maintenance and battery shutdown in vehicles. The HV switches are ideal for high-power

The Rincon High Voltage Battery Disconnect (HVBD) allows for the safe disconnection of high voltage traction packs. The HVBD features a robust metal-ceramic hermetic seal, high temperature

[HVBD High Voltage Battery Disconnect, Rincon Power, LLC](#)

HVBD is the next level in battery disconnect technology. 1000V. 300A, 400A and 600A continuous duty versions. Hermetically sealed. Gas Filled. Intrinsically safe. Auxiliary contacts (optional). Industry

[Battery Disconnect Switches, TE Connectivity](#)

TE offers battery disconnect switches that are designed to safely cut off battery power in HV applications. They come in various configurations and locking options.

HV battery disconnect & fire-off system

Discover STMicroelectronics' HV battery disconnect and fire-off system solutions for enhanced safety in electric vehicles.

High Voltage Battery Disconnects

Ideal for isolating high voltage and carrying current, our HVBDs safely disconnect high voltage battery packs during maintenance and storage. If your application requires make/break power switching,

[Rincon Power HVBD4AXR High Voltage Battery Disconnect](#)

Hermetically sealed and gas filled. Intrinsically safe with industry leading dielectric performance. AEM Performance Electronics makes advanced technologies accessible to the racing masses. Check out
