

# Building a solar power station on the mountain

## Overview

---

The answer lies in a potent combination of untapped space, superior sunlight exposure, and the pressing need to think beyond traditional, lowland installations. This shift isn't just about finding new real estate for solar farms - it's about revolutionizing how and where we produce.

## Building a solar power station on the mountain

---

### Building

Buildings serve several societal needs - occupancy, primarily as shelter from weather, security, living space, privacy, to store belongings, and to comfortably live and work.

### Ivanpah Solar Power Facility

The Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across
