

Conditions for the establishment of wind and solar complementary solar container communication stations in Zambia

Overview

This paper proposes constructing a multi-energy complementary power generation system integrating hydropower, wind, and solar energy.

Conditions for the establishment of wind and solar complementary

[Wind power restrictions for solar container communication stations](#)

We evaluate the suitability of solar-wind deployment focusing on three aspects: solar/wind exploitability, accessibility, and interconnectability, as elaborated in Supplementary Table S3.
