

# Croatia battery life

## Overview

---

Given the current state of Croatia's power system and grid, the proposed batteries would buffer around one terawatt hour of electricity per year. Annual curtailment would fall by around 60.

## Croatia battery life

---

### [FER Takes Key Role in Battery Storage Study for Croatia's Power Grid](#)

The study will result in a proposal for the optimal technical design of battery systems within the power grid, along with legislative and regulatory recommendations to support its implementation.

### [Croatia first grid-scale battery storage and virtual power](#)

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the deployment of a VPP
