[San Jose, California: Evaluating Local Solar Energy Generation](#)

As part of these efforts, the city was seeking data and analysis to understand the extent to which rooftop solar photovoltaic (PV) energy generation could contribute toward its 100% renewable electricity goal.

Solar power in California

OverviewHistoryPhotovoltaicsSolar thermal powerGenerationGovernment supportState challenges with solar powerPublic opinion

Over the last 20 years, California has been home to a number of the world's largest solar facilities, many of which are located in the Mojave Desert. In 1991, the 354 MW Solar Energy Generating Systems plant (located in San Bernardino County, California) held the title until being bested by the 392 MW Ivanpah Solar Electric Generating System, a solar thermal plant located in San Bernardino County near the Nevada b
