

Energy companies are offering discounts on 20-foot energy storage containers

Overview

According to BloombergNEF's recently published Energy Storage System Cost Survey 2024, the prices of turnkey energy storage systems fell 40% year-on-year from 2023 to a global average of US\$165/kWh. The research firm said this was the highest annual drop since its.

Hydrogen Storage

The required large storage volumes may have less impact for larger vehicles, but providing sufficient hydrogen storage across all light-duty platforms remains a challenge.
