

Energy storage customer development program

Overview

This program is designed by enrolling customer home or business energy storage systems to contribute energy to the grid during peak demand periods. Customers can receive performance incentives for participating in planned events.

Energy storage customer development program

[Residential-Retail Storage Implementation Plan](#)

NYSERDA will continue to engage with energy storage stakeholders through program implementation and will propose modifications to this Plan as needed, in consultation with DPS.

ENERGY STORAGE PROJECTS

The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to facilitate the transition to a clean energy economy.

[Retail Energy Storage Incentive Program Manual](#)

If a project is pairing a solar system with an energy storage system, that contractor must be approved in both the NY-Sun Program and Retail Energy Storage Incentive Program.

NOTICE1

The State of New Jersey has one of the most ambitious storage targets in the nation, with a statutory mandate to achieve 2,000 megawatts ("MW") of installed energy storage by 2030.

[Residential and Retail Storage Incentives](#)

NYSERDA offers incentives for grid-connected residential and commercial customers to install standalone energy storage or systems paired with a new or existing on-site renewable generation

Energy Storage Grand Challenge

The Department of Energy's (DOE) Energy Storage Grand Challenge (ESGC) is a comprehensive program to accelerate the development, commercialization, and utilization of next-generation energy

[Energy Storage Incentive Rate Setting for States](#)

Summary The intent of this document is to provide recommendations and guidance for states seeking to develop distributed or behind-the-meter (BTM) energy storage incentive programs. It is intended to
