

Environmental protection standards for liquid flow batteries in communication base stations

Environmental protection standards for liquid flow batteries in com

[U.S. Codes and Standards for Battery Energy Storage](#)

This document offers a curated overview of the relevant codes and standards (C+S) governing the safe deployment of utility-scale battery energy storage systems in

Codes & Standards Draft

Assists users involved in the design and management of new stationary lead-acid, valve-regulated lead-acid, nickel-cadmium, and lithium-ion battery installations.

[The judiciary for climate justice and environmental rule of law](#)

Inger Andersen, of UNEP, urges courts to champion climate justice and environmental rule of law to protect human rights amid worsening climate impacts.

Flow Battery Energy Storage

The following organisations contributed to the development of the draft: This guide is open to use by

EnvironmentGPT

How is the health of our planet doing right now, and what does that mean for us? What indicators

show the current state of global environmental health, and what policy priorities should address them?

Publications & Knowledge

The United Nations Environment Programme provides open-access scientific, technical and policy resources to support evidence-based decision-making for a sustainable planet. These include

2022: A year of environmental milestones

Photo: UNEP This year, UNEP campaigns raised awareness about a multitude of environmental issues. World Environment Day, the International Day of Clean Air for blue skies and

Greening the Blue Annual Report 2025

The 2025 edition of the Greening the Blue Annual Report presents the environmental performance of the UN system in 2024, covering operations of headquarters and field offices worldwide. 60 UN system

[AI has an environmental problem. Here's what the world can do](#)

The sprawling data centres that house AI servers churn out toxic electronic waste and are voracious consumers of electricity, which in most places is still produced from fossil fuels.

[Battery Energy Storage Systems: Main Considerations for Safe](#)

This webpage includes information from first responder and industry guidance as well

[Environmental assessment requirements for liquid flow batteries for](#)

This study conducts a comparative assessment of the environmental impact of new and cascaded

[Safeguarding Space: Environmental issues, risks and](#)

The space sector is growing exponentially, with over 12,000 spacecraft deployed in the past decade and many more planned as the world embraces the benefits provided by satellite

[Five ways in which education is driving environmental action](#)

Education is powering environmental action: five ways schools, youth programmes and universities build skills, leadership and solutions to restore nature.

Annual Report 2025 , UNEP

The 2025 Annual Report explores UNEP's results and impacts across climate action, nature and land action, pollution action and more. In a time when multilateralism is more important
