## How to get a quote for solar panels

---

### [How to get all groups that a user is a member of?](#)

PowerShell's Get-ADGroupMember cmdlet returns members of a specific group. Is there a cmdlet or property to get all the groups that a particular user is a member of?

### [How to make an HTTP get request with parameters](#)

Is it possible to pass parameters with an HTTP get request? If so, how should I then do it? I have found an HTTP post request (link). In that example the string postData is sent to a webserver. I

### [How can I get current time and date in C++?](#)

Is there a cross-platform way to get the current date and time in C++?

### What is the { get; set; } syntax in C#?

get and set are accessors, meaning they're able to access data and info in private fields (usually from a backing field) and usually do so from public properties (as you can see in the above example).

## Merica Solar Panels in San Jose CA
