

# Kiribati energy efficiency

## Overview

---

The KIER is Kiribati's comprehensive energy roadmap, which takes into account renewable energy and energy efficiency potential in all sectors from 2017 to 2025.

## Kiribati energy efficiency

---

### Kiribati , NEXSTEP

Increasing the adoption of minimum energy performance standards and labelling (MEPSL) for lighting, refrigeration and air-conditioning as well as introducing electric vehicles for government

### Kiribati

The savings potentials are calculated based on the assumption that Minimum Energy Performance Standards are implemented in 2022 at a level derived from the .

### [Kiribati Integrated Energy Roadmap \(KIER\): 2017-2025](#)

The KIER is Kiribati's comprehensive energy roadmap, which takes into account renewable energy and energy efficiency potential in all sectors from 2017 to 2025.

### [Promoting Outer Island Development Through An Integrated Energy](#)

The project is working to enhance outer island development by achieving renewable energy and energy efficiency targets for Kiribati. Efforts to date have lacked links to enhancing economic development

### SDG7 Roadmap for Kiribati

Energy efficiency and electric vehicle strategies will provide multi-fold benefits in the long term. Increasing renewables in power supply provides the highest potential in GHG emission reduction as

## Kiribati

Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your

### [Kiribati strengthens energy efficiency capacity](#)

Kiribati has joined other Pacific Islands countries and territories (PICTs) to enact legislation to facilitate an accelerated transition to renewable energy and energy efficiency.

## Kiribati Integrated Energy Roadmap:

In 2011, Kiribati joined Pacific Island leaders to agree on developing credible, comprehensive energy roadmaps that improve energy security, reduce dependency on fossil fuel and increase access to

### [KIRIBATI: Kiribati Integrated Energy Roadmap \(KIER\): 2017-2025](#)

The findings of this roadmap show that power sector is a key area, where the ongoing efforts from the deployment of solar PV should be continued and complemented with and improvement of efficiency

## [Energy Planning Department , Ministry of Infrastructure and](#)

The Energy Planning Department is responsible for guiding and regulating Kiribati's energy sector. Our work focuses on ensuring energy security by making sure that electricity and fuel are safe, reliable,
