

Location of distribution box at cabinet communication site

Overview

The acceptable location for the outdoor meter cabinet shall be the area along the front half of the side of the house nearest the temporary cable marker, the front wall, or 3 feet from the front wall on the side opposite the temporary cable marker. Avoid fenced in areas wherever.

Location of distribution box at cabinet communication site

COMMUNICATION SITE BUILDING DESIGN AND INSTALLATION

In a site where the existing ceiling is too low to accommodate the specified clearances, the location of the cable tray may be moved to above the aisle behind the equipment row.

Telecom Room Design and Construction Checklists

Each equipment rack shall have two dedicated 20A circuits, one normal and one emergency power. Larger circuits may be required for specialized equipment. Lights and convenience outlets (at
