

London Energy Storage Project

London Energy Storage Project

[UK energy storage pipeline report 2024](#), [RenewableUK EnergyPulse](#)

There has been a shift in the pipeline for current and future long duration electricity storage (LDES), from over 7.2GW in December 2023 to 10.5GW in May 2024. In January, the Government

[Ofgem approves 77 energy storage projects to supercharge UK's grid](#)

Ofgem has confirmed that 77 LDES projects, totalling 28.7 GW, have passed the first eligibility stage under its new cap and floor scheme. Of these, 71 projects (24.5 GW) are expected to

[Top 7 Battery Energy Storage System Projects in UK 2026](#)

Discover the biggest commercial battery storage UK projects in 2025, including NatPower's Teesside GigaPark, Statera's Carrington, RES's Coalburn etc.

[London Energy Storage Case: Powering the Capital's Green Future](#)

Welcome to London's energy storage revolution - where megawatts meet marmalade sandwiches in the most British way possible. The London energy storage case isn't just about batteries; it's about

[Super battery projects that maximise renewable-generated power](#)

These projects include a variety of storage methods such as Li-Ion batteries, flow batteries and pumped hydro storage, which releases water stored at height to turn turbines, creating

[BW ESS Celebrates Inauguration of the UK's Largest Battery Energy](#)

This landmark project, the largest of its kind to enter operation in the UK, marks a significant step forward for the UK's transition to a cleaner, more resilient energy system.

[Data dive: Ofgem advances 77 storage projects for LDES scheme](#)

The approved projects represent a total discharge capacity of 28.7GW and feature a range of storage technologies including lithium-ion (Li-ion) batteries, flow batteries, pumped hydro

[Gresham House Energy Storage secures grid](#)

(Alliance News) - Gresham House Energy Storage Fund PLC on Friday reported grid connection offers for two more of its projects, but flagged a delay in meeting earnings guidance. The

Warley Energy hub

The project is on National Grid land adjacent to its 275kV Warley substation. It will connect

directly to the London electricity distribution circuit and serve to balance supply and demand in London.

Energy Storage Summit

Every government is seeking economic growth and energy security but, without flexible capacity, this stalls. The UK and Europe have a choice: move faster, co-ordinate, and scale the energy transition,
