

Malawi solar energy storage colloidal battery

Overview

Backed by our Alliance, and implemented by the state utility ESCOM, the project will install a 20MW/30MWh battery system in Lilongwe. The system will store electricity when supply is high and release it when demand peaks, helping balance the grid and support greater use of.

Malawi solar energy storage colloidal battery

Malawi energy storage battery assembly

Malawi is building its first battery-energy system, a technology that will help protect its grid from cyclones that have battered the southern African nation in recent years.
