Difference between 'new operator' and 'operator new'?

A new expression is the whole phrase that begins with new. So what do you call just the "new" part of it? If it's wrong to call that the new operator, then we should not call "sizeof" the sizeof

Push local Git repository to new remote including all branches and tags

Whether you push all the branches or just some of them, Git will perform the entire operation without creating any new local branches, and without making changes to your working

What is the 'new' keyword in JavaScript?

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What problems

When to use "new" and when not to, in C++?

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

Lightforce Solar

The cost of a solar system varies depending on the size of the system, the type of solar panels,

the inverter, and the battery. In New Zealand, the average cost of

[How does the new operator work in JavaScript?](#)

The new operator uses the internal [] method, and it basically does the following: Initializes a new native object Sets the internal [] of this object, pointing to the Function prototype

[New site design and philosophy for Stack Overflow: Starting February](#)

Ah, but new experts will rise up and embrace the new, friendly Stack Overflow that they have always wanted. And maybe rediscover the same things the bitter, hateful old guard found.

How to open link in a new tab in HTML?

Note I previously suggested blank instead of `_blank` because, if used, it'll open a new tab and then use the same tab if the link is clicked again. However, this is only because, as GolezTrol
