

Northeast Photovoltaic Panel Base

Northeast Photovoltaic Panel Base

[Solar Resource Data, Tools, and Maps , Geospatial Data Science , NLR](#)

View an interactive map or download geospatial data on solar photovoltaic supply curves.

Best Solar Panel Direction by Zip Code

Here is a table with the best solar panel direction for over 800 of the most populated zip codes in the United States. Sort it or search it to quickly find yours.

[Solar PV Solutions , NorthEast Electrical](#)

NorthEast Electrical can help provide Solar PV for residential, commercial, and utility-scale applications. We assist solar EPC's & installers throughout New England in procurement and on-time completion

U.S. Photovoltaic Database

It includes corresponding PV facility information, including panel type, site type, and initial year of operation.

Project Sunroof

We use Google Earth imagery to analyze your roof shape and local weather patterns to create a personalized solar plan. Adjust your electric bill

Viewer , USPVDB

The USPVDB Viewer lets you discover, visualize, and interact with the USPVDB through a dynamic web mapping application.

to fine-tune your savings estimate and the

Northeast Solar

Only one out of four homes have good sites for solar in Western Massachusetts due to trees and roof orientation. Shade free, south facing rooftops are best for maximizing solar production, but Northeast

POWER BASE(TM)

Featuring bottom-access PV module clamping, the POWER BASE system eliminates the need for ladders, enhancing both safety and efficiency during installation.

[BNL , NSERC, the Northeast Solar Energy Research Center , Home](#)

Brookhaven National Laboratory developed the Northeast Solar Energy Research Center (NSERC) on its campus to serve as a solar energy research and test facility for the solar industry.

[Photovoltaic Module Soiling Map , Photovoltaic Research , NLR](#)

NLR scientists and engineers have generated a map that highlights soiling parameters of fielded photovoltaic panels at 255 locations-either soiling stations or photovoltaic sites-across the
