

# PV Energy Storage in New South Wales

## Overview

---

Oil & gas major TotalEnergies and Canadian Solar have received key state-level approvals for large-scale solar PV-plus-energy storage projects in New South Wales, Australia.

## PV Energy Storage in New South Wales

---

### [TotalEnergies, Canadian Solar win approvals for](#)

Oil & gas major TotalEnergies and Canadian Solar have received key state-level approvals for large-scale solar PV-plus-energy storage projects in New South Wales, Australia.

### [Malaysian group starts 243 MW solar, 172 MW/409](#)

Gentari Renewables Australia has broken ground on the Maryvale Solar & Energy Storage project in New South Wales, Australia. The project will

### [TotalEnergies Secures Development Approval for a 320 MW PV](#)

Located 290 km northwest of Sydney and 20 km south of Tamworth, the project will feature a 320 MWac photovoltaic (PV) solar farm, a battery energy storage system (BESS) of up to

### [JinkoSolar plans 133MW solar-plus-storage site in New South Wales](#)

Jinko Power Australia, the local branch of Chinese solar producer JinkoSolar, has submitted a 133.76MWh solar-plus-storage project in New South Wales to the federal government

## Maryvale Solar & Energy Storage

### Maryvale Solar & Energy Storage Project: Empowering

The Maryvale Solar & Energy Storage Project, developed by Gentari Solar Australia, is a significant renewable energy initiative located approximately

The Maryvale Solar and Energy Storage Project is a proposed renewable energy facility located near the town of Maryvale, 12km North-West of Wellington. The project combines the benefits of solar power

### Gentari Breaks Ground on 243 MW Solar-Storage Project

Gentari, Malaysia's leading clean energy solutions provider, has announced the groundbreaking of its Maryvale Solar and Energy Storage Project in the State of New South Wales

### Gentari breaks ground on 243MWp DC-coupled solar-plus-storage

The hybrid facility will integrate 243MWp of solar generation capacity with a 172MW/409MWh battery energy storage system (BESS), establishing it as one of Australia's first

### Ace lands fast approval for NSW solar-plus-storage project - pv

The project, that includes a 100 MW solar farm and a co-located 100 MW / 400 MWh battery energy storage system, is planned for a 314 ha site about 11 km northeast of Narrabri in

### [Gentari Breaks Ground on Maryvale Solar & Energy](#)

The Maryvale Solar & Energy Storage System will support a reliable renewable energy by enhancing grid stability and efficiency. The system will

### [Trinasolar Powers Goulburn Community Solar Farm with Modules.](#)

Trinasolar, a global leader in smart PV and energy storage, has delivered an integrated solar-plus-storage capability through a project combining Trinasolar Vertex N modules, TrinaTracker

### [Flow Power buys 55-MW solar-storage project in New South Wales](#)

Australian energy retailer, generator and technology company Flow Power has unveiled the acquisition of a hybrid project in New South Wales, which will combine 55 MW of solar and 60

### **Spark secures Australian approval for massive solar and battery project**

Spark Renewables has secured final state planning approval for a solar and battery project that will add 800 MW of PV and 356 MW/1,574 MWh of energy storage capacity to the grid in New
