

Portable Data Center Racks for Edge Computing

Overview

Prefabricated racks, UPS/power, cooling, fire suppression, monitoring, and access systems - a complete portable data center solution ready for fast deployment. Built to meet Tier III/IV principles and fully tested (FAT/SAT).

Portable Data Center Racks for Edge Computing

[Micro Data Centers for Edge Computing , EdgeRack Cabinets](#)

All-in-one, self-contained, prefabricated micro data centers for edge computing. With up to 8kW of integrated cooling, EdgeRacks are ready to be deployed wherever you need them.

[Container Data Center , CenCore Secure Edge Computing](#)

CenCore's containerized data centers bring secure, high-density computing at the edge- anywhere it's needed. Each system supports up to 8x 42U racks with integrated cooling, power, and optional

[Custom Modular Data Centers for Edge & AI , ModulEdge](#)

A modular data center is a prefabricated, container-based facility that integrates racks, power distribution, cooling, fire suppression, and security systems inside a portable enclosure.

Micro Data Centers , Eaton

Tripp Lite's innovative Micro Data Centers conveniently and cost-effectively enable edge computing in locations where dedicated IT space is unavailable and impractical or cost-prohibitive to retrofit.

HiveRadar

Enterprise-grade portable edge data center with HCI performance. Deploy anywhere with 5G connectivity, telescoping pole, and rugged construction. Perfect for remote sites, mining, hospitality,

Containerized Data Center

Prefabricated, pretested, and fully configured architecture with high portability for edge computing application. All subsystems, such as UPS, power distribution, battery, cooling, racks and more, are

[Edge Computing, Redefined , Armada Galleon](#)

Designed as modular, containerized data centers, Galleons are built to thrive in challenging environments, ensuring your operations remain efficient and uninterrupted-whether you're on an

Revolutionary IT Cooling

Now you can transform your server rack into a portable, energy-saving server room. EdgeCool by DENSO brings data-center efficiencies down to the rack level - and is the only split system

[Modular Data Centers , Containerized Data Centers , BMarko \(R\)](#)

BMarko Structures designs and manufactures custom prefabricated modular data centers built to meet the growing demands of today's edge computing, cloud infrastructure, and AI

workloads.

[Vertiv Micro Data Centers: Power Up Your Edge Computing](#)

The SmartRow(TM) is a complete Edge data center pre-Engineered by Vertiv for lightning-fast deployment. Each system includes rack enclosures, in-row cooling with complete containment, UPS battery
