As of at least 2024, China has one third of the world's installed solar panel capacity and is the largest domestic market for solar panels. A large part of the solar power capacity installed in China is in the form of large PV power plants in the west of the country, an area much less populated than the eastern part but with better solar resources and available land.

Tier List Maker for Everything

A tier list is a ranking system that allows you to rank anything in tiers from the best to worst. Using a tier list allows you to group similar ranked items together and it's quick and easy to create a tier list.
