Controlled Products

PWM Solar Charge Controller User Manual

PWM Solar Charge Controller User Manual This controller is suitable for lithium batteries and all kinds of lead-acid batteries (OPEN, AGM, GEL) .
5. The controller will be hot when running. Please note that

[Intelligent controller series for solar water heating control system](#)

Intelligent controller series for solar water heating control system. When install with other

applications on this system, such as solar collector, pump station, and storage, please follow the instruction of

Solar Control System szoz-bt1040

Solar-control systems can help to reduce the cooling energy consumption of buildings, to reduce the energy consumption of the artificial lighting system, to provide visual comfort, to ensure healthy

SOLAR CONTROL SYSTEM User Manual

The intelligent control system makes it easier and more convenient to run the solar system automatically. With microcomputer, the large LCD display helps you track the temperature in four

METEOR Solar Systems: Solar controllers

Measures up to 2 (3 on specific request) temperatures and has 2 separate relay outputs for each element (pump/ heating wire and electrical heater on boiler). Fully programable with 6 main
