

Solar energy storage battery European market

Overview

In 2025, Europe's battery storage market entered a new phase of scale and maturity.

Solar energy storage battery European market

EU Battery Storage Market Review 2025

This new annual EU Battery Storage Market Review is designed to serve as a reference point to observe, analyse, and guide the technology's progress.

[EU installs record 27 GWh of battery storage capacity in 2025](#)

Germany has seen the widest battery spread across Europe's main markets, with the spread for a two-hour system averaging Eur139.77/MWh in April-September, falling to Eur79.11/MWh in the fourth

[Europe Battery Energy Storage System Market Size, 2033](#)

The residential and community battery storage segment offers a growth opportunity for the Europe battery energy storage systems market. This is driven by generous national subsidy

Germany, Italy, UK, Netherlands, Spain to lead European battery market

Germany, Italy, the United Kingdom, the Netherlands, and Spain will lead a market dominated by large-scale batteries, with hybrid renewables-plus-storage sites becoming the norm,

[European Market Outlook for Battery EU solar Storage 2025](#)

Our five-year outlook foresees significant BESS expansion in Europe - a sixfold increase to nearly 120 GWh by 2029, driving total capacity to 400 GWh, yet falls short of energy transition needs.

[Europe Battery Energy Storage System Market](#)

The Battery Energy Storage System Market in Europe is projected to grow at a 7.5% CAGR from 2025 to 2035, driven by renewable energy integration, grid stability needs, and

[SolarPower Europe Report: European Battery Storage Expands by](#)

A new analysis from the latest European Market Outlook for Battery Storage shows that Europe experienced another record-breaking year for battery storage installations, even though the

[Europe Battery Energy Storage System Market Size & Share 2031](#)

The Europe Battery Energy Storage System (BESS) market size is projected to expand from USD 20.69 billion in 2025 and USD 24.22 billion in 2026 to USD 52.72 billion by 2031, reflecting

[Status and Outlook of Battery Energy Storage Systems in the EU](#)

Without the strong development of battery storage, further growth of renewable energy would be significantly constrained. Over the past

twenty years, since SolarPower Europe began

[SolarPower Europe , EU Battery Storage Market Review 2025](#)

In 2025, Europe's battery storage market entered a new phase of scale and maturity. With 27.1 GWh of new capacity installed, the European Union achieved its 12th consecutive record
