

Solibro thin film solar modules

Solibro thin film solar modules

[THE SOLIBRO SL2 MODULE , Solar Cell , Nanotechnology Products](#)

The uniform black Solibro thin film module is now even more powerful! Thanks to ongoing integration of our world-record-breaking CIGS technology into our production, Solibro modules are

Generation 1.4 / 100-10 -120-125 Wp

Our modules deliver top performance even at very high temperatures: With a temperature coefficient of $-0.38\% / K$, the Solibro CIGS modules are a long way ahead of their crystalline competitors,

[Solibro Solar Panels: A Deep Dive into Thin-Film Innovation](#)

That's the magic of Solibro's copper indium gallium selenide (CIGS) thin-film technology. Unlike traditional silicon panels that resemble blue-tinted windows, these sleek modules achieve 16-18%

SOLIBRO SL2-F CIGS THIN-FILM MODULE

25-year performance warranty of CIGS thin-film modules, with a production capacity of 145 MW. Solibro has headquarters in Thalheim, Germany and a research site in Uppsala, Sweden, both of which

[Solibro Solar Modules SL1, SL1-F and SL2 Generation G1](#)

the CIGs solar modules sl1, sl1-F and sl2 from solibro allow you to directly transform the unlimited energy provided by the sun into environmentally friendly electrical energy.

SOLIBRO SL2 CIGS THIN-FILM MODULE

SOLIBRO SL2 CIGS THIN-FILM MODULE Solibro's SL2 thin-film modules offer efficiencies up to 13.8 % in serial production. The modules are especially suited for roof-parallel installations on flat rooftops.

[SOLIBRO SL2-F CIGS Thin Film Solar Panel , 125 -145 Wp](#)

Quality control Module 100% through the solar cell module defect detection (EL), ensure the production process Longer and more stringent tests than IEC 61646

[SOLIBRO SL2 CIGS THIN-fILM MODULE Generation 2.2 , 125](#)

Easy to clean Frameless design means these modules are less susceptible to dirt
