## Tch electric tool solar container lithium battery

---

### single word requests

This has been bothering me (a native English speaker) for a long time. It seems almost impossible outside of dialogue to describe the act of unconsciously spitting out a "Tch!" in

### How did the silent 't' come into all these 'tch' words?

It seems to me that the 'tch' behaves in English spelling the way a doubled consonant would, and the 'ch' the way a single consonant would. That is, 'tch' is more likely to occur after short vowels.

### Origin and connotations of RBF (Resting Bitch Face)

Like really early. On the very same day, a video by Madeline Mann, entitled: "My Struggle With Resting B\*tch Face", was posted. In the video she utters the initialism, RBF, and

### Amazon : Lithium Battery Storage Container

[Is there a WORD For: sound made by mouth to express demeaning](#)

The sound made by pushing middle tongue against palate, tip of tongue bent downward and pushed up against upper teeth and sucking in air sharply w/ mouth open, chin drops and holds

## pronunciation

A competing analysis would be that "tch" is a trigraph where all three letters function together to represent the single sound [tʃ]. In the first analysis, "t" is a silent letter.

## Where/when did the \*idea\* of bad words come from in English?

Bad Words: f\*ck sh\*t \*ss d\*mn b\*tch Ok, so there's no point in listing them all. The thing I'm interested in is this: Why is it that in English we have a strong sense of a group of words t
