grammar

Would it be ok to say "from smaller to larger" or do I have to say "from smallest to largest" E.g., I'm using the batteries from smallest/smaller to largest/larger capacity.

Is it fine to use "the second largest" when comparing 3 things

Second largest works, but the phrase that first came to mind for me when I read your question was, next to largest. I think I'd use that in this case. Intermediate feels more like a word that

What is the difference between "largest" and "biggest"?

What is the largest lake in the world? Compare this to 'the biggest lake'. To my mind, the largest is the one with the greatest surface area, the biggest may have a smaller surface area but be deeper and

word usage

What about the second pie chart? In the second pie chart the largest portion is less than 50%. Can I still consider the group "c" as majority in it? Based on the Cambridge Dictionary it seems

terminology

A hand of bridge has 13 tricks, and one can win between 0 and 13 tricks in a hand. Between 0 and 6 tricks would constitute a minority of tricks, with 6 being the largest possible (discrete) minori

phrases

In "the single largest factor", "single" is technically redundant, save for excluding the possibility of joint winners. When used (by someone who understands the language) it's serves as an

[Edwards & Sanborn Solar and Energy Storage Project.](#)

Developed by Terra-Gen, the project represents the largest private-public partnership with the Department of Defence and is currently North

[Uae Launches World S Largest Integrated Solar Amp Battery Storage](#)

The largest solar energy storage cabinet lithium battery energy storage project The full completion and commercial operation of the Edwards & Sanborn project in California was announced in January

[How should we describe the largest group in a set when its share](#)

The largest share of the region's cost estimate total belongs to projects classified as "long term", which accounts for 9% of the region's projects and 47% of the region's cost estimate total.

Moss Landing Power Plant

Overview
Battery energy storage facilities
History
Connections to the California power grid
Natural Gas power generation

Utilities in California are required by a 2013 law to provide significant battery storage by 2024. The Moss Landing Power Plant site has since been chosen as California's primary location to provide battery based energy storage in order to better utilize renewable energy sources such as solar and wind on a grid-wide commercial scale. On June 29, 2018 Vistra Corp announced that it planned on building at the Moss La

mathematics

a) 7 is the smallest and 9 is the greatest number or b) 7 is the smallest and 9 is the largest number
The research so far indicates that both terms largest and greatest are used in

The largest, greatest, highest or biggest number of
