

The largest solar energy storage battery

Overview

The Edwards & Sanborn solar-plus-storage project in California is now fully online, with 875MWdc of solar PV and 3,287MWh of battery energy storage system (BESS) capacity, the world's largest.

The largest solar energy storage battery

Solar and Batteries Go Big in the Desert

The Edwards Sanborn Solar and Energy Storage project incorporates the highest capacity solar farm in the United States with the largest battery storage system in the world. The facility came

Once built, DCEP will be the largest battery energy storage system in the world, highlighting California's leadership in clean energy innovation and infrastructure.

[California Fast-Tracks World's Largest Solar and Battery Storage](#)

The single most important data point confirming this scale is the project's 4.6 GWh battery energy storage system (BESS) capacity, which is set to be the largest in the world.
