

# When will the Vienna energy storage power station be put into use

**LPR Series 19'  
Rack Mounted**

## Overview

---

Feb 13, 2025 · Slovenia-based NGEN put Austria's largest battery energy storage system into operation. It installed it in record time - just seven months.

## When will the Vienna energy storage power station be put into use

---

### [The Vienna Compressed Air Energy Storage Project: Breathing New](#)

That's essentially what Vienna's compressed air energy storage (CAES) project does, but on an

### [When will the Vienna energy storage power station be put into use](#)

With its 395 megawatts of electric power and 350 megawatts of thermal energy capacity, the power station - opened in 2001 - provides energy and heat for the greater Vienna region.

### [Vienna Energy Storage Project Bidding: Key Insights for Success](#)

As Vienna accelerates its renewable energy transition, energy storage projects have become critical

### **Vienna power storage project**

That's essentially what Vienna's compressed air energy storage (CAES) project does, but on an
